## **SAFETY POLICY**

- Life and property safety always comes first aboard the ships
- The safety rules defined by national and international rules and regulations shall be obeyed
- The safety element shall always be taken into consideration primarily for the activities aboard ships and no sacrifice shall be made in this aspect
- No activities threatening ship, life, property and environment safety will be allowed aboard the ship
- Safety related issues shall be given priority in training activities
- Entire personnel shall participate physically to the muster drills associated with safety
- No smoking shall be allowed throughout the ship other than appointed smoking areas
- The firefighting equipment, fixed and portable firefighting systems shall be kept operational and ready for emergency utilization at all times
- Necessary measures shall be taken at the ports in order to secure physical safety of the ship
- The deliberate activities seriously threatening safety of the ship shall be considered a reason for termination of employment contract.
